To: "Garth Huber" <huberg@cinp.ca>

Hi Garth,

Is CINP submitting a brief in connection with this?

With best regards,

Wim

Message sent on behalf of Jonathan Bagger.

Although the Strategy is for particle physics, areas of overlap like electron-ion colliders are also included.

Open call to all members of the particle physics community:

The CERN Council has set itself the objective of updating the European Strategy for Particle Physics by May 2020. To achieve this, it has established a Strategy Secretariat to which it has assigned the task of organizing the update process.

The Strategy update process will include two major events: an 'Open Symposium' and a 'Strategy Drafting Session.'

At the Open Symposium, to be held in the second half of May 2019, the community will be invited to debate the scientific input into the Strategy update, which will take the form of a 'Briefing Book.' This will be prepared over the summer of 2019 by a Physics Preparatory Group (PPG) and submitted to the European Strategy Group (ESG) for consideration before and during its Strategy Drafting Session to be held in the second half of January 2020.

To prepare the Open Symposium, the Strategy Secretariat hereby calls upon the particle physics community in universities, laboratories, national institutes, and institutions to submit written input following the guidelines.

The deadline for input is December 18, 2018.

Input should be submitted via a portal that will be created on the Strategy update website, which will be available from the beginning of October 2018, once the Strategy update has been formally launched by the CERN Council. The link to this website will appear on the CERN Council's webpages - and be widely communicated through the appropriate channels.
